14. CBRNE Prevention & Response						
<u>Watercraft</u>						
This category allows for the purchase of surface boats and vessels for port homeland security purposes, including prevention and response. Allowable costs also include the purchase of customary and specialized navigational, communications, safety, and operational equipment necessary to enable such watercraft to carry out their homeland security mission.						
15. CBRNE Aviation Equipment						
This category allows for the purchase of special-purpose aviation equipment where such equipment will be utilized primarily for homeland security objectives and permissible program activities, and provides that the local units of government certified that it has an operating aviation unit and that the costs for operation and maintenance of such equipment will be paid from non-grant funds. Aviation equipment is defined as fixed-wing aircraft, helicopters, and air-safety containers for CBRNE prevention, response, mitigation and/or remediation. Allowable costs include the purchase of customary and specialized navigational, communications, safety, and operational equipment necessary for CBRNE prevention, response and/or recovery.
