

# ADVANCED LIFE SAVING MEDICAL PRODUCTS

REV MED X™

Revmedx™ XGauze® Trauma Dressing uses the same compressed mini-sponge technology as the revolutionary XSTAT product line. XGAUZE is a Z-Fold dressing embedded with over 120 compressed mini-cellulous sponges.

Unlike traditional gauze products that just absorb fluid, XGAUZE both absorbs and expands up to 10X its size upon contact with blood or exudate. No prescription needed.

**XGauze is the first of its kind, rapid expanding, Z-fold dressing to treat hemorrhaging wounds.\***

*\*When used in conjunction with a wrap or pressure bandage, XGAUZE can be used for treating traumatic hemorrhage.*

**XGAUZE®**

- ❖ 3.5" x 35" Z-fold dressing embedded with compressed mini-cellulous sponges.
- ❖ Each sponge expands up 10x its size upon contact with blood or exudate.
